

Name: Gael

Postcode: 2320

About you: Landholder

Name of your business or organisation:

1. What improvements should the NSW Government consider making to the existing Private Native Forestry Codes of Practice?: LLS should use its resources to find alternate methods of weed and pest control. Chemicals are poisons, which poison our earth and our water supply, and shouldn't be used at all. I know they are an easy and cost effective way out. But we will all pay for this with our health, animals too. Has the recent Monsanto liability case taught us nothing? Responsible landholders should be caring for the soil, not poisoning it.

Please indicate which code/s you are referring to: All codes

2. Do you have any suggestions to ensure the Private Native Forestry regulatory settings are efficient, enforceable and effective?:

3. How can the NSW Government improve the authorisation and approval system for Private Native Forestry?:

4. What training and advice services would assist landholders, industry and the community?:

5. Do you have any other comments or feedback relevant to Private Native Forestry that you would like to share with us?
