**1. What improvements should the NSW Government consider making to the existing Private Native Forestry Codes of Practice?:** Protection of corridors, old growth trees & habitat trees with buffers, water courses & buffers, maintenance of next cohort trees at a realistic level - to be decided by EPAH scientists, no clear felling within PNF at all. Harvesting at a realistic rate - enough for land, water aquifers & biodiversity to recover/ adapt to changes gradually as determined by appropriate experts. Succession/new PNF operations plantings where positive outcomes will occur.

**Please indicate which code/s you are referring to:** All codes

**2. Do you have any suggestions to ensure the Private Native Forestry regulatory settings are efficient, enforceable and effective?:** yearly reports from landholders, on-site audits every 2-3yrs

**3. How can the NSW Government improve the authorisation and approval system for Private Native Forestry?:** Rely on expert staff to provide the appropriate information through the old or similar system of PVP's.

**4. What training and advice services would assist landholders, industry and the community?:** Silviculture/biodiversity maintenance courses.

**5. Do you have any other comments or feedback relevant to Private Native Forestry that you would like to share with us?:** Promote longterm benefits of maintaining tree cover for all the Essential Services that they offer.
