My comments

To have private native forestry in NSW subject to different industry codes of practice from the NSW Forestry Corporation is anti-competitive and illegal. It is in blatant violation of Australia's Competitive Neutrality laws; eg. <https://www.treasury.nsw.gov.au/nsw-economy/competition-policy>.

All commercial forest operations should be subject to a level playing field whether private or public!

They should also be subject to full, transparent and open market competition.

When will NSW and Australia get a real forest industry? One that is fully commercial and profitable?

Not in my lifetime it seems but I'm forever hopeful.
